

GOLD901™

Water Service Tubing

Gold901 is a lightweight, easy to install, 200 psi rated water service tubing that can be used on both the municipal and building-owners side of a project.

Gold901 is manufactured to Copper Tube Size (CTS) from PE4710 High-Density Polyethylene (HDPE) and is third-party certified and listed to AWWA C901, CSA B137.1, NQ 3660-950 and NSF 61.

Features:

Non-corroding

Resistant to corrosive soils, aggressive water, stray electrical currents, and moist environments

Sequential Markings

Sequential markings make measuring and cutting easier

Superior Flow

Hazen Williams C-Factor = 150

High Pressure

Rated 200 psi at 73°F (1380 kPa at 23°C)

Standards

B137.1

NSF-61
